ESTERLINE TECHNOLOGIES CORPORATION

Basic Working Conditions and Human Rights in Esterline's Supply Chain

Esterline is committed to the core values of Respect and Compliance with both the letter and the spirit of applicable laws. We treat employees, customers, and all people with respect at all times. We take our legal obligations seriously. These values were established in Esterline's published Code of Conduct, which is available on our Internet web site. Accordingly, Esterline supports efforts to eradicate slavery and human trafficking from manufacturing supply chains and Government contracting. Esterline prohibits the use of slavery, human trafficking, and forced labor in all its operations and in its supply chain, and by its employees, contractors, and agents.

Esterline is in the process of developing a global policy to establish more particular corporate standards regarding trafficking and slavery in supply chains, verification of product supply chains, audits of suppliers, supplier certifications, internal accountability standards, and training.
